

## HydroImpact Skincare. World's First Hydrogen Facial – From Skinrex, Korea.

HydroImpact – World's First Hydrogen Skin Care Treatment. HydroImpact infuses hydrogen water into our body to remove free radicals and boost antioxidant activity. Imagine pure, clean, cool water and a wonderful gentle vibration whirling away surface skin for the most exhilarating, most refreshing skin rejuvenation you have ever had!

HydroImpact is extremely unique since it has the capability to deliver hydrogen to act at the cellular level. Hydrogen is qualified to cross the blood-brain barrier, to enter the mitochondria, and even has the ability to translocate to the nucleus under certain conditions. Once in these ideal locations of the cell, previous studies have shown that hydrogen exerts antioxidant, anti-apoptotic, anti-inflammatory, and cytoprotective properties that are beneficial to the cell.

HydroImpact can help with:  
Inflammation  
Antioxidant  
Acne  
Anti-Ageing  
Pigmentation  
Prevent Hair Loss  
Skin Moisturizing & Brightening.

#### **HYDRO-IMPACT BEFORE AND AFTER CARE**

1. Before a hydroimpact facial it is important to stop isotretinoin/Roaccutane products for 6 months.
2. Discontinue Retinol A products for 48 hours.
3. Do not use exfoliating treatments like glycolic acid or enzymes on the area that is going to be treated for at least 48 hours before the treatment.
4. Stop using any medium or deep chemical peel or chemical resurfacing or laser treatments for at least 2 weeks before a facial treatment.
5. Do not wax or use depilatory cream for at least 48 hours before the treatment.
6. Stop using any over-the-counter acne medications like benzoyl peroxide and salicylic acid, for at least 48 hours before you have your facial.
7. Avoid excessive sun exposure or tanning beds for at least 72 hours before the facial.
8. Do not have any Botox treatments for at least 2 weeks before the treatment. You can have Botox on the same day as the treatment but it must be afterwards.
9. Do not shave the area on the same day as the treatment.

## After Care

1. Avoid extra sun exposure and tanning beds for 72 hours after the treatment.
2. Avoid washing the face the morning after a HydroImpact facial. Use a pure cleanser like Tropic Cleanser and Vitamin Toner followed by a serum.
3. Use Tropic Skincare Rainforest Dew serum twice a day for 30 days. It contains hyaluronic acid, plant peptides, evergreen fern and matcha tea extracts which work as antioxidants and anti-inflammatory agents. Use Rainforest Dew before all other serums.
4. For Acne use Pure Lagoon serum morning and evening.
5. For pigmented skin use Glow Berry serum morning and evening.
6. If you use Fruit Peel once a week, leave 12 hours after Pure Lagoon or Glow Berry. Ideally use Fruit Peel in the evening and Glow Berry or Pure Lagoon in the morning.
7. Apply SPF 30 sunscreen daily for 3-5days after the treatment.
8. Do not wax or use depilatory creams or retin A or generic tretinoin for 48 hours after treatment.
9. Do not use medium or deep chemical peels or laser treatments for at least 2 weeks after treatment.
10. Do not use exfoliating treatments like glycolic acid or enzymes for at least 24 hours after the treatment.
11. Avoid intense heat for at least 24 hours after treatment.
12. Wait 24 hours before applying makeup.
13. HydroImpact treatment is recommended every 4 weeks. Every 2 weeks for acne-prone skin.
